John J. Douglas and Miss Dixie Loven were married at Lexington two days before the groom left for army service. The bride formerly lived in Madisonville.

Former Senator Isaac Stephenson died at his home in Marinette, Wis., yesterday, aged 89 years. He was up to a year or two ago a member of the Senate and was the oldest and richest member.

Pembroke has started out to enforce its vagrancy law against all able-bodied men. Even "father" must either grab a hoe or toy with the handle of a rock hammer.

The Senate has passed a bill to submit a constitutional amendment authorizing the removal from office of public officers who fail to afford protection to prisoners and allow them to be lynched by mobs.

The case against The Courier-Journal for criminally libelling Judge C. H. Bush was set for March 7, but no special Judge has yet been appointed by the Governor to try the case. As Judge Bush cannot sit in his own case, the trial of the case at this term of court, is uncertain.

From the best information obtainable, the movement of troops from Christian county will not begin March 29 and probably not until about April 10th. It is practically settled that the colored registrants who have been passed will be called next. The entire quota of 324 men in the first draft were white men and it is doubtful if any white men will be in the next call, as 40 per cent of the registrants in this county are colored.

## ASSESSMENT CUT \$1,000,000

CHRISTIAN COUNTY'S LIST WAS  
HELD TO BE TOO MUCH  
INCREASED.

Former Assessor W. J. McGee and County Attorney Sam T. Fruit have returned from Frankfort, where they appeared before the Tax Commission and succeeded in having Christian county's assessment lowered from \$24,000,000 to \$23,000,000 in round numbers. This is still an increase of \$10,000,000 over last year's assessment. The reduction of \$1,000,000 will be \$750,000 on farm lands and \$250,000 on city property.

A letter from Chairman M. L. Logan, of the state tax commission, to Judge Champlin regarding the reduction for this county, gives this high praise of Assessor McGee's work. "In the first place we want to thank this occasion to express our thanks and gratitude to your county assessor Mr. McGee, for the splendid work which he has done. He deserves the highest commendation not only from the state tax commission but from all the citizens of his county. He has shown himself to be a fearless, conscientious, painstaking official. We also want to express our appreciation to the people who have so well responded to his suggestions. His work has been so well done that Christian county is one of the few counties assessed above the standard which we have fixed for the present year."

## STAMPEDE TO ABOLISH MANY USELESS JOBS

Both Parties Flop Together  
and Action Is By Unanimous Vote.

## BOB COOK ONE OF LOSERS

New Board of Five, All Democrats, Will Supersede Old Board.

Frankfort, Ky., March 15.—In a stampede of both parties to make clean records, the Senate by unanimous vote yesterday passed the bill abolishing many of the offices created in recent years by the Legislature, the bill to take effect immediately.

This was the result of Edwin P. Morrow's action in lining up Republican Senators against continuing the offices for two years.

The Democrats were not to be caught napping by the camouflage of Morrow. A conference was held by leaders of the dominant party, which resulted in the drawing in of party lines and the strengthening of defenses, and backed by a solid line-up of Democratic Senators, the Rules Committee called up for passage the Richardson measures, known as the Probe Bills, providing for the abolition or consolidation of over a hundred jobs, and passed them. The Republicans voted "aye" to most of them, but their votes were superfluous.

Under the provisions of the bills they become effective ninety days after the adjournment of the Legislature.

The fire of the officials was centered tonight on the members of the House of Representatives and all of the political pressure at their command was brought to bear to get the bills amended to become effective at the expiration of the terms of the appointees, as originally provided for in the report of the Joint Probe Committee. The offices abolished follow:

State Prison Board—Three members at \$2,000; secretary.

State Board of Control—Four members at \$2,500; secretary.

State Rating Insurance Board—Two members at \$3,000; secretary at \$800, actuary at \$3,000, attorney at \$3,000 and six clerks.

Two State school inspectors and two clerks.

Supervisor of Revenue Agents at \$3,000.

State Board of Forestry—Five members, nonsalaried.

## CIGAR FACTORY PROPOSITION

Discussed Last Night At  
A Citizens' Business Meeting At H. M. B. A.

## REPORT WAS RECEIVED

From The Committee That  
Went To Paducah To  
Inspect Plant

A meeting was held at the H. M. B. A. last night to receive the report of the committee who went to Paducah to investigate the cigar factory there and to confer further with Mr. Weis about his proposition to bring a similar factory here.

Mr. Weis made a definite and positive proposition to come with the factory provided a suitable building is furnished for rent and a guaranty of at least 300 women and girls to work in the factory is given at the start.

Committees were named to ascertain if the conditions can be met and they will go to work at once. These committees are:

Building—M. C. Forbes, J. E. McPherson, R. E. Cooper, Ed L. Weather, and Sam Frankel.

Applications For Labor—L. H. Davis, C. R. Clark, J. T. Wall, B. A. Keach, Archie Higgins, L. R. Davis and Low Johnson.

Publicity—G. E. Gary, L. K. Wood, J. D. McGowan, M. E. Bacon and H. A. Robinson.

A subscription was started and more than \$10,000 was subscribed by those present towards the erection of a building for lease.

Applications may be made at the H. M. B. A. by those who want work.

000, and the other assistant at \$2,500.

The Confederate Pension Commission is to take over the work of the Compiler of Confederate Records without additional compensation.

The revenue agents and the motor vehicles department are taken over by the State Tax Commission without any additional salary.

It is probable that Prison Commissioner Henry Hines of Lexington; Herbert Carr of Paducah, and J. T. Hatcher, of Pikeville; and J. Forrest Butts, of Carrollton, and J. A. Burton, of Lebanon, Democratic members of the Board of Control, will go on the new Board at salaries of \$3,000, excepting the chairman, who draws \$3,600. This leaves off the two Republicans of the present Board of Control, Dr. Arch Dixon, of Henderson, and Chairman Robert A. Cook, of Hopkinsville.

Eugene Gray, of Louisville, is secretary of the Prison Board, and George B. Caywood, of the Board of Control. N. O. Gray, chairman of the Rating Board, or Brent Green, now supervisor of revenue agents, are tipped for rating superintendents. This would leave out H. H. Colyer, of Richmond, one of the members. The other is Insurance Commissioner C. F. Thomas, who now gets \$600 extra as secretary of the board.

Thomas Byars' term as Commissioner Motor Vehicles will expire about the time the law goes into effect.

Maj. J. G. Rogers, of Louisville, compiler of Confederate Records, and School Inspector Marion F. Pogue, of Princeton, and J. W. Davis, are legislated out.

## READY FOR MOBILIZATION

KENTUCKY COLORED SELECTIVES FROM 42 COUNTIES  
WILL GO TO CANTONMENT.

Louisville, Ky., March 15.—Kentucky's "black army" will begin moving on Camp Zachary Taylor beginning Friday, Mar. 29. Sixteen hundred and fifty-one negro selectives from forty-two counties of the state will advance to the local cantonment, arriving in successive contingents over a period of five days. The negroes from nearly three-fourths of the state's 2,244 blocks, who have been drafted.

Louisville will send 237 negroes to camp from its seven draft divisions and Jefferson county outside the city will send fifty more. None of the local boards has yet received its orders and the day on which the negroes will be sent has not been learned.

Maj. Henry F. Rhodes, U. S. R., in charge of the draft, in the Adjutant General's office, has sent out notices for the quotas from the following counties:

Adair, 14; Ballard, 15; Barren, 30; Bath, 22; Bell, 18; Bourbon, 50; Boyle, 40; Caldwell, 25; Clark, 60; Daviess, 26; Fayette, 17; Fleming, 24; Fulton, 50; Garrard, 31; Graves, 35; Harrison, 25; Hart, 21; Henderson, 30; Hickman, 23; Hopkins, 70; Jefferson, 50; Jessamine, 30; Letcher, 45; Lincoln, 23; Logan, 18; McCracken, 70; Madison, 35; Mason, 20; Montgomery, 32; Muhlenberg, 30; Perry, 51; Pike, 37; Scott, 35; Shelby, 20; Simpson, 30; Todd, 45; Trigg, 25; Union, 25; Warren, 26; Washington, 23; Webster, 30; Woodford, 20; Covington, 70; Lexington, 30; Newport, 19; Louisville, No. 1, 6; No. 2, 30; No. 3, 48; No. 4, 27; No. 5, 34; No. 6, 70; No. 7, 18.

Local boards have been notified in filing emergency calls under the draft that men "actively, completely and assiduously engaged in planting and cultivation be deferred until the last."

It will be observed that Christian county is not one of the 42 counties first called upon.

## FARMERS IN DRAFT

Will Be Deferred For Present  
On Order Disbursing  
Officer Rhodes

## THE PRESIDENT DIRECTS

Need Of Nation For Agriculture Workers Pronounced Great

Men in the Class I of the present draft will be passed by the Local Board and deferred until the end of the quota, according to the order published below. This order was received yesterday by Mrs. Gillock, clerk of the Local Draft Board, and is official. This order should be read by each and every citizen in order to assist in enforcing the regulations prescribed in said order.

Only men who are "actively, completely, and assiduously engaged in planting and cultivation of a crop" and who are in Class I will be deferred.

The official order is as follows: Office of Disbursing Officer and Agent of U. S. War Registration and Draft, Frankfort.

Bulletin No. 61.

March 15, 1918.

To All Local Boards in Kentucky: Deferment of Call For Men Actively Engaged in Farming Pursuits.

The situation arising from the scarcity of farm labor demands that the call to the colors of men actively, completely, and assiduously engaged in the planting and cultivation of a crop and who are in class one, should be deferred until the end of the present quota.

The President therefore directs that in filing an emergency call you shall pass the order number of such men and defer their call for the present.

It must be borne in mind that this step is taken solely in the need of the nation and not for the benefit of any individual. Therefore, while boards should consider it a grave duty to exercise this power to conserve and augment the agricultural production, they should observe closely the conduct of these deferred and immediately upon becoming convinced that any person so deferred is not giving his entire time and earnest attention to agricultural duties, or that he is trifling with the deferment thus granted him, the board should forthwith call him to the colors.

All citizens should assist in making this effective and in bringing to the attention of the boards cases meriting deferment, as well as cases in which deferment is being abused.

There has been made today a call upon several of our local boards to furnish colored men who were within the deferred percentage of their first quota. This call was only for 1650 men, while we had in the first draft 2250 colored men. As we could only send 1650 men at this time, many local boards were not called upon to furnish any colored men, but will be called upon shortly.

HENRY F. RHODES, Major of Infantry, U. S. R., Disbursing Officer and Agent of U. S.

## THE DAYLIGHT SAVING BILL PASSES HOUSE

Clocks All Over The Country  
To Be Set Forward  
One Hour

## ON 31ST DAY OF MARCH

To Remain That Way Until Last Sunday In October

(By International News Service.)

Washington, March 15.—Clocks all over the country will be set ahead one hour beginning Sunday, March 31, under the daylight saving bill passed today by the House 252 to 10. The bill provides that at 2 p. m. on the last Saturday in March, clocks all over the country which effects any operations of the Federal Government or railroads shall be set ahead one hour. At 2 p. m. on the last Sunday in October they shall be retarded one hour. All business relating in any way to the Federal Government must be conducted on such time.

Members from the agricultural states laughed at the measure and most of the unfavorable votes were from farming districts.

Representative Thomas, of Kentucky, said: "I once heard of Joshua ordering the sun to stand still three days, or hours, as a war measure. That must have been the first freak action urged upon the people as a war measure. I used to think my State Legislature had the 'fooldest' ideas in the world, but it never tried to change the sun in its orbit."

## RAILROADS NOT TRUSTED

TO DELIVER CARS ON TIME—  
PURCHASERS DRIVING MA-

As an evidence of the desire of the public to avoid the uncertainties of freight and freight deliveries by railroads, dealers and individuals are going to the factories in the north by rail and driving automobiles overland. This method is being adopted as the quickest and surest way of getting out for anxious customers.

Yesterday morning a party with ten trucks arrived in town on their way from Flint, Michigan, to points in the West Tennessee. Again at noon a party of ten from Kentucky, Texas, and one from Arkansas, came into Hopkinsville driving loaded cars. All these stopped at the garage of Dunbar's Motor Co. to make minor repairs and get a new supply of gasoline. This party had driven from Detroit and the cars showed evidence of having passed through rain and mud and dust.

There may have been other cars pass through unharmed by the Kentucky. Two or three new Fords were seen to pass but it is not known where they came from nor where bound.

## "Over the Top"

By An American Soldier Who Went

ARTHUR GUY EMPEY

Machine Gunner Serving in France

(Copyright, 1917, by Arthur Guy Empey)

SYNOPSIS.

CHAPTER I--Fired by the news of the sinking of the Lusitania by a German submarine, Arthur Guy Empey, an American, leaves his office in Jersey City and goes to England where he enlists in the British army.

CHAPTER II--After a period of training, Empey volunteers for immediate service and soon finds himself in the front line "somewhere in France," where he first makes the acquaintance of the over-precise "Tommy."

CHAPTER III--Empey attends his first church service at the front while a German bomber circles overhead. CHAPTER IV--Empey's command goes into the front-line trenches and is under fire for the first time.

CHAPTER V--Empey learns to adopt the motto of the Irish Tommy, "If you are going to get it, you'll get it, so never worry."

CHAPTER VI--Back in rear billets, Empey gets his first experience as a mess orderly.

CHAPTER VII--Empey learns how the British soldiers are fed. CHAPTER VIII--Back in the front-line trench, Empey meets his first friend of the trenches, "No. 1."

CHAPTER IX--Empey makes his first visit to a dugout in "Snipe's Ditch."

CHAPTER X--Empey learns what constitutes a "day's work" to the front-line trench.

CHAPTER XI--Empey goes "over the top" for the first time in a charge on the German trenches and is wounded by a machine gunner.

CHAPTER XI.

Over the Top.

On my second trip to the trenches our officer was making his rounds of inspection, and we received the cheerful news that at four in the morning we were to go over the top and take the German front-line trench. My heart turned to lead. Then the officer carried on with his instructions. To the best of my memory I recall them as follows: "At eleven a wiring party will go out in front and cut lines through our barbed wire for the passage of troops in the morning. At two o'clock our artillery will open up with an intense bombardment, which will last until four. Upon the lifting of the barrage the first of the three waves will go over." Then he left. Some of the Tommies first gained permission from the sergeant went into the machine gunners' dugout and wrote letters home, saying that in the morning they were going over the top, and also that if the letters reached their destination it would mean that the writer had been killed.

These letters were turned over to the captain with instructions to mail same in the event of the writer's being killed. Some of the men made out their wills in their pay books, under the caption, "Will and Last Testament."

Then the nerve-racking wait commenced. Every now and then I would glance at the dial of my wrist watch and was surprised to see how fast the minutes passed by. About five minutes to two I got nervous waiting for our guns to open up. I could not take my eyes from my watch. I crouched against the parapet and strained my muscles in a deathlike grip upon my rifle. As the hands on my watch showed two o'clock a blinding red flare lighted up the sky in our rear, then a thunder, unaccompanied by a sharp, whistling sound in the stridor of our shells from our guns were heard on their way toward the German lines. With one accord the men sprang up on the fire step and looked over the top in the direction of the German trenches. A line of bursting shells lighted up No. Man's Land. The din was terrific and the ground trembled. Then, high above our heads we could hear a sighing sound. Our big boys behind the line had opened up, and 9.2's and 15-inch shells commenced dropping into the German lines. The flash of the guns behind the lines, the scream of the shells through the air, and the flare of them, bursting, was a spectacle that put Pulis's greatest display into the shade. The constant pop, pop, of German machine guns and an occasional rattle of rifle firing gave me the impression of a huge audience applauding the work of the batteries.

Our 18-pounders were destroying the German barbed wire, while the heavier stuff was demolishing their trenches and blasting in dugouts or bunk holes. Then Fritz got busy.

Their shells went screaming overhead, aimed in the direction of the areas from our batteries. Trench mortars started dropping "Minnies" in our front line. We elicited several casualties. Then they suddenly ceased. Our artillery had taped or silenced them.

During the bombardment you could almost read a newspaper in our trench. Sometimes in the flare of a shell-burst a man's body would be silhouetted against the parados of the trench and it appeared like a huge monster. You could hardly hear yourself think. When an order was to be passed down the trench you had to yell it, using your hands as a funnel into the ear of the man sitting next to you on the fire step. In about twenty minutes, a generous rum issue was doled out. After drinking the rum, which tasted like varnish and sent a shudder through your frame, you wondered why they made you wait until the lifting of the barrage before going over. At ten minutes to four the word was passed down. "Ten minutes to go!" Ten minutes to live! We were shivering all over. My legs felt as if they were asleep. Then word was passed down: "First wave get on and near the scaling ladders."

These were small wooden ladders which we had placed against the para-

pet to enable us to go over the top on the lifting of the barrage. "Ladders of death" we called them, and veritably they were.

Before a charge Tommy is the poorest of men. There is never any pushing or crowding to be first up these ladders. We crouched around the base of the ladders waiting for the word to go over. I was sick and faint, and was puffing away at an unlighted fag. Then came the word, "Three minutes to go; upon the lifting of the barrage and on the blast of the whistles, 'Over the top with the best of luck and give them hell.'" The famous phrase of the western front. The Jonah phrase of the western front. To Tommy it means if you are lucky enough to come back you will be minus an arm or a leg. Tommy hates to be wished the best of luck; so, when peace is declared, if it ever is, and you meet a Tommy on the street, just wish him the best of luck and duck the brick that follows.

I glanced again at my wrist watch. We all wore them and you could hardly call us "dummies" for doing so. It was a minute to four. I could see the hand move to the twelve, then a dead silence. It hurt. Everyone looked up to see what had happened, but not for long. Sharp whistle blasts rang out along the trench, and with a cheer the men scrambled up the ladders. The bullets were cracking overhead, and occasionally a machine gun would rip and tear the top of the sandbag parapet. How I got up that ladder I will never know. The first ten feet out in front was agony. Then we passed through lines in our barbed wire. I knew I was running, but could feel no motion below the waist. Patches on the ground seemed to float to the rear as if I were on a treadmill and scenery was rushing past me. The Germans had put a barrage of shrapnel across No. Man's Land, and you could hear the pieces slap the ground about you.

After I had passed our barbed wire and gotten into No. Man's Land a Tommy about fifteen feet to my right front turned around and looking in my direction, put his hand to his mouth and yelled something which I could not make out on account of the noise from the bursting shells. Then he coughed, stumbled, pitched forward and lay still. His body seemed to float to the rear of me. I could hear sharp cracks in the air about me. These were caused by passing rifle bullets. Frequently, to my right and left, little spurts of dirt would rise into the air and a ricochet bullet would whine on its way. If a Tommy should see one of these little spurts in front of him, he would tell the nurse about it later. The crossing of No. Man's Land remains a blank to me.

Men on my right and left would stumble and fall. Some would try to get up, while others remained huddled and motionless. Then smashed-up barbed wire came into view and seemed carried on a tide to the rear. Suddenly, in front of me loomed a hunched-in trench about four feet wide. Queer-looking forms like mud turtles were scrambling up its wall. One of these forms seemed to slip and then rolled to the bottom of the trench. I leaped across this intervening space. The man to my left seemed to pause in midair, then pitched head down into the German trench. I laughed out loud in my delirium. Upon alighting on the other side of the trench I came to with a sudden jolt. Night in front of me loomed a giant form with a rifle which looked about ten feet long, on the end of which seemed seven bayonets. These flashed in the air in front of me. Then through my mind flashed the admonition of our bayonet instructor back in Highty. He had said, "Whenever you get in a charge and run your bayonet up to the hilt into a German the Fritz will fall. Perhaps your rifle will be wrenched from your grasp. Do not waste time, if the bayonet is fouled in his equipment, by putting your foot on his stomach and tugging at the rifle to extricate the bayonet. Simply press the trigger and the bullet will free it." In my present situation this was the logic, but for the life of me I could not remember how he had told me to get my bayonet into the German. To me this was the paramount issue. I closed my eyes and leaped

forward. My rifle was torn from my hands. I must have gotten the German because he had disappeared. About twenty feet to my left front was a huge Prussian nearly six feet four inches in height, a fine specimen of physical manhood. The bayonet from his rifle was missing, but he clutched the barrel in both hands and was swinging the butt around his head. I could almost hear the swish of the butt passing through the air. Three little Tommies were engaged with him. They looked like pigmies alongside of the Prussian. The Tommy on the left was gradually circling to the rear of his opponent. It was a funny sight to see them duck the swinging butt and try to jab him at the same time. The Tommy nearest me received the butt of the German's rifle in a smashing blow below the right temple. It smashed his head like an eggshell. He pitched forward on his side and a convulsive shudder ran through his body. Meanwhile the other Tommy had gained the rear of the Prussian. Suddenly about four inches of bayonet protruded from the throat of the Prussian soldier, who staggered forward and fell. I will never forget the look of black astonishment that came over his face.

Then something hit me in the left shoulder and my left side went numb. It felt as if a hot poker was being driven through me. I felt no pain--just a sort of nervous shock. A bayonet had pierced me from the rear. I fell backward on the ground, but was not unconscious, because I could see dim objects moving around me. Then a flash of light in front of my eyes and unconsciousness. Something had hit me on the head. I have never found out what it was.

(Continued.)

I dreamed I was being tossed about in an open boat on a heaving sea and opened my eyes. The moon was shining. I was on a stretcher being carried down one of our communication trenches. At the advanced first-aid post my wounds were dressed, and then I was put into an ambulance and sent to one of the base hospitals. The wounds in my shoulder and head were not serious and in six weeks I had rejoined my company for service in the front line.

Cause of Cold Feet.

Cold feet may be habitual, constitutional or from general ill health, commonly they are so by habit. Tight shoes, a sedentary life and overeating are often guilty, asserts an authority. When there is too little ventilation of the feet or the stockings are too thick, the relief isn't easy. The feet are kept warmer by wearing thin hose and low shoes, cold baths and vigorous massage, active exercise outdoors--especially walking--than by inactive indoor life. Frequent daily washing of the feet helps to restore their warmth.

Box to Hold Vegetables.

The box should be divided by partitions, the largest space being for potatoes, another for apples, etc. Where space is at such a premium that provisions have to be bought in small quantities this plan will add much to the comfort and convenience of the kitchen. It may be covered neatly and utilized for a seat. Have the cover hinged so that it will be easy to open.

Great Rubber Producer.

The Malay peninsula is the largest rubber-producing and rubber-exporting country in the world. Ten years ago the production was small, as compared with that of Brazil, which was then the principal source of supply. Its advent to first place as a rubber-producing country is due to its favorable climatic and soil conditions.

"We Must Sail, Not Drift."

I find the great thing in this world is not so much where we stand, as in what direction we are moving, writes O. W. Holmes. To reach the port of heaven, we must sail sometimes with the wind and sometimes against it--but we must sail, and not drift, nor lie at anchor.

## PROBES ALLEGED NARCOTIC SALES

LEXINGTON POLICE DEPART. MENT CALLED IN AID OF SECRET SERVICE.

Lexington, Ky., March 14.--A probe into the traffic of drugs and narcotics in Lexington, carried on for more than a week by T. S. Ray, a Federal agent, after the local police department had complained to the Federal Government for aid in stamping out the evil, is believed to have furnished sufficient evidence for several indictments when Ray lays his report before the United States grand jury in Covington the first week in April. Ray made known his identity yesterday after having completed his investigation. Seven arrests of drug addicts have been made during the past week.

NEW WORLD'S RECORD.

A world's record production of 918.6 pounds of milk was made in seven days by Raphaela Johanna Aagle 111, a registered Holstein, owned by the Napa (Cal.) State Hospital, according to a statement by Owen Duffy, business manager of the hospital. The best previous record was 902.1 pounds of milk in seven days, made by Riverside Sadie De Koll Burke, owned in Woodland, Cal.

Thieves Bury Auto.

Somewhat out of the ordinary in making away with stolen cars was the method of Springfield, Mass., thieves, who buried a car in a lonely wooded spot not far from the state line. Boys passing discovered what appeared to be a newly made grave and notified the police, who when they dug a short time, uncovered a windshield. The car bore a Massachusetts license.

### USE FOR DISCARDED SHIRTS

Redeeming man's discarded shirts and making babies dresses, like those worn by the kiddies in this photo, from them, is the novel idea of Mrs. A. D. Gilmore, and she is devoting a great deal of her time to this work. She has organized a club of her own, and has volunteered to act as instructor of similar clubs.

Her plan will put to good use material ordinarily wasted, and it is hoped that hundreds of useful little dresses for children of the war zone will be made. The need is great, and the ability to meet it in part requires comparatively little.

This is too good an idea to be confined to one section of the country. Clubs should spring up everywhere to aid in this noble and humanitarian work of clothing the little war zone refugees.

If you haven't the time, but have the shirts, send them to Mrs. Gilmore at the Yonkers chapter of the Red Cross. This photograph shows Mrs. Gilmore with her two little children wearing short dresses, but you'd never know it, for the little dresses are very daintily made.

### ONLY JOB OF KIND

Merchant Marine Has an Official Chantle Man.

Stanton H. King of Boston, an Old Salt, Teaches Rookies to Sing Sea Songs.

Boston.—Stanton H. King of Boston has the only war job of his kind.

He is official chantle man for the American merchant marine.

His work will be to revive chantle singing among merchant sailors who will join the country's new cargo ships through the United States shipping board recruiting service, national headquarters of which are at Boston.

While chantle singing has declined on all seas, owing to the change in recent years from sailing vessels to steamers—there not being much opportunity to "heave and haul" on board a steamer—his revival is considered important for two reasons.

Chantle is a team work when a crew is pulling on ropes, even aboard steamers; while the building of large numbers of American schooners means an increased demand for men who can "reef, hand and steer" on sailing vessels, where chantle singing used to flourish.

The shipping board trains men to serve on steamers, but if a certain percentage ship on sailing vessels and carry with them the almost lost knack of chantle singing, they will be the better equipped for their work, according to Stanton H. King.

Stanton H. King probably is the country's best-known chantle singer. Chantle singing is part of a weekly entertainment he gives Jack ashore at a mission of which he is head.

The program is usually varied, and to hear Mr. King lead his sailor friends in "Shenandoah," "Bound for the Main Grande" or "How the Man Down" is to understand the psychological punch of the well-sung chantle.

Mr. King is an old salt and learned chantle singing on deep water vessels. He began going to sea 38 years ago, from the Barbados, in the merchant service.

### EMPLOYEES WEAR WAR SERVICE BADGES

Portland, Ore.—"War service badges" are being proudly worn by employees of the Northwest Steel company here. The concern is engaged in building 8,500-ton freighters for the Emergency Fleet corporation and its 5,000 employees have all been exempted from the draft. The "war service badge" is about three inches long, two inches wide, and is oval in shape, of nickel and bears the words "War Service—Shipbuilding."

## FEDERAL INCOME TAX IN BRIEF

The Requirements Dolled Down  
for Busy Folks.

Returns must be filed on or before April 1, 1918.

Tax due may be paid now or on or before June 15, 1918.

If you were single and your net income for 1917 was \$1,000 or more you must file a return.

If you were married and living with wife (or husband) and had a net income of \$2,000 or more for 1917 you must file a return.

Husband's and wife's income must be considered jointly, plus income of minor children.

Income of a minor or incompetent, derived from a separate estate, must be reported by his legal representative.

Severe penalties are provided for those who neglect or evade the law.

For false or fraudulent return there is a penalty not exceeding \$2,000 fine or year's imprisonment, or both, plus 100 per cent. of tax.

For failure to make return on or before April 1, 1918, fine is from \$20 to \$1,000, plus 50 per cent. of tax due.

Returns must be filed with the collector of Internal Revenue of district in which you live.

An agent may file return for a person who is ill, absent from the country or otherwise incapacitated.

Each return must be signed and sworn or affirmed by person executing it.

Single persons are allowed \$1,000 exemption in computing normal tax.

A married person living with wife (or husband) is allowed \$2,000 exemption, plus \$200 for each dependent child under 18.

A head of family, though single, is allowed \$2,000 exemption if actually supporting one or more relatives.

Returns must show the entire amount of earnings, gains and profits received during the year.

Officials and employees are not taxable on the salaries or wages received from a state, county, city or town in the United States.

Interest on state and municipal bonds issued within the U. S. is exempt from federal income tax and should be omitted.

Interest on United States government bonds is also exempt, except on individual holdings of Liberty Bonds in excess of \$5,000 par value.

Dividends are not subject to normal tax, but must be reported and included in net income.

Gifts and legacies are not income and should not be included on the return of the beneficiary.

Life insurance received as a beneficiary or as premiums paid back at maturity or surrender of policy is not income.

Payments received for real or personal property sold is not income, but the profit realized thereon is income for the year of sale.

Amounts received in payment of notes or mortgages is not income, but the interest on such notes or mortgages is taxable income.

From the entire gross income certain allowances are made in arriving at the net income.

Necessary expenses actually paid in the conduct of business, trade or profession may be claimed.

A farmer can claim payments for labor, seed, fertilizer, stock feed, repairs on buildings, except his dwelling; repairs of fences and farm machinery; materials and small tools for immediate use.

The amount of rent paid for a farm may also be claimed as a tenant farmer's expense.

Payments for live stock are allowable if bought for resale. But if bought for breeding purposes cattle are an investment, not an expense, and cannot be allowed.

A storekeeper can claim amounts paid for advertising, clerk hire, telephone, water, light and fuel, also dry goods and freight bills and cost of operating and repairing wagons and trucks.

A physician can claim cost of his professional supplies, rent, office help, telephone, expense of team or automobile used in making professional calls and expenses attending medical conventions.

A dentist can claim similar items, except team or auto expense, which are not necessary in his profession.

Expenses that are personal or connected in any way with the support or well being of a person or family are not allowable.

The costs of machines, instruments, vehicles or implements that are more or less permanent in character are not allowable as an expense. They are investments.

Interest paid on a mortgage or other personal indebtedness is allowable on a personal return.

All taxes paid within the year can be taken out on a federal return, except federal income taxes, inheritance taxes and assessments for local improvements.

Losses sustained in business or through fire, storm or shipwreck or by theft, except when compensated by insurance or otherwise.

Wear and tear of rented buildings or machinery used in business may be claimed.

You can also claim the amount paid to the Red Cross and to other charitable, religious or educational organization to the extent of 15 per cent. of your net income.

## Proof that Some Women do Avoid Operations

Mrs. Etta Dorion, of Ogdensburg, Wis., says:

"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

How Mrs. Boyd Avoided an Operation.

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. Maudie Boyd, 1121 5th St., N. E., Canton, Ohio.

### NEW DOG LAW.

The House of Representatives at Frankfort has passed the bill providing for a tax of \$1 on males and \$2 on female dogs for the first one of each sex to be licensed by the owner and \$1 on males and \$1 on females for each additional dog of either sex. Person operating a kennel may maintain a kennel by the payment of a fee of \$10 for ten dogs or less and \$25 for more than ten dogs, but no dog in the kennel

shall be allowed outside the limits of the kennel unless in leash.—Caldiz Record.

### COUNTY DEMONSTRATOR HURT.

Owensboro, Ky., March 15.—Mrs. Walter Evans, County Food Demonstrator for Daviess county, was seriously injured yesterday when the automobile she was driving up a steep hill turned over backward, pinning Mrs. Evans and Miss Cary beneath it. Mrs. Hawes was not injured. It was some time before the machine was removed from Mrs. Evans. Several of her ribs were broken and it is thought she was internally injured.

### WILL MOVE TO CHRISTIAN.

Joel E. Parker and family will leave tomorrow for Christian county where they will reside. They will live near Crofton and Mr. Parker and his sons will engage in farming.—Caldiz Record.

## WANTED--AMERICANS!

There are 90,000,000 of us in the United States--all in the family of our own Uncle Sam.

And Uncle Sam needs money--your money--everybody's money. He doesn't ask you to give it to him; he wants to borrow and pay you interest for it.

Maybe you didn't have \$50 or \$100 to lend him in Liberty Bonds, but surely you have 25 cents. If we, all of us, buy one thrift stamp--just one stamp apiece--that is \$22,500,000, and if every one of us buys \$4.12 worth--25 cents worth from time to time for sixteen times--that's \$370,800,000.

Your pin money does help. Doesn't it?

We don't know how much money you have--how much--how little. It doesn't matter, any way. For it is getting to a point that every man--every woman--every boy--every girl--must make the business of helping win this war--the most important thing on earth.

Like the Liberty Bonds, the war savings certificates bear 4 per cent interest. On January 1, 1923, each certificate will be worth \$5. These stamps are exchangeable at face value plus accumulated interest at any time between now and January 1, 1923.

You can buy from your mail carrier or at the Post Office.

## TOBACCO MARKET UNCHANGED

SALES FOR WEEK OVER MIL-  
LION POUNDS AND WET TO.  
BACCO DECREASES THE  
AVERAGE.

The tobacco market on the local floors remains practically unchanged as compared with the previous week. Deliveries have not been so heavy the past few days, due to the fact that farmers have been taking advantage of the dry clear days to make preparations for another season's crop.

Much wet and damaged tobacco continues to be offered, but the buyers are reluctant about bidding on this and the prices are consequently low. This has occasioned a large per cent of the rejections. High

grade tobacco is eagerly sought after and prices on such continue strong with no evidence of a decline.

The sales to date this season are only 794,255 pounds below the sales this date a year ago. Below is shown the Inspector's weekly report which is as follows:

Week ending March 11, 1918.  
LOOSE FLOORS.

dred Million Needed.

JAS. BREATHITT TO LEAD

Campaign Will Be Nation  
Wide—Work of Mercy  
For Boys In Khaki.

Another big Red Cross drive to raise a Hundred Million Dollars for work among our soldiers camps in this country and at the front in France will be staged during the week of May 20 to 27. Just what part of the huge sum will be apportioned to Christian county has not yet been announced, but everybody expects, and wants to see old Christian do her full duty. She can and she will. Make ready to "rally 'round the (Red) Cross" when the time comes.

The campaign will be outlined and managed by James Breathitt, Jr., who has been named as director for Christian county. He will gather around him several of the noblest men and women of the city and county, who will aid and assist in every way possible to make the drive a success. Mr. Breathitt is young, capable, and energetic and we will not be ashamed of the showing which will be made under his generalship.

## FIRE DAMAGE ON EAST 13TH ST.

RESIDENCE OF HERBERT L.  
HAYDON IS PARTIALLY  
DESTROYED.

Fire yesterday morning about 10:30 o'clock badly damaged the home of Mr. Herbert L. Haydon, E. 13th street. The roof of the building was practically destroyed. The flames originated from a spark falling on the roof and the fire had made considerable headway when an alarm was turned in. The house belongs to Mr. George Thacker and was insured.

A tenant house on the farm of J. C. Barnes, near Kelly, was destroyed by fire Thursday evening, together with most of the contents. The loss is probably \$500. There was \$100 insurance on the building.

## PRINCESS TODAY.

Mae Marsh in "The Cinderella Man." Beyond question the most powerful and appealing screened love story of the year," says N. L. Nathanson, owner of a chain of Canadian theatres.

"The picture that will double Mae Marsh's popularity in North America," says J. R. Muir, the big Vancouver-Victoria-Nanaimo theatre magnate.

"By odds the greatest Mae Marsh production and George Loane Tucker's biggest picture," says Joseph Grossman, Standard Theatre, Cleveland.

Telegraphing from Los Angeles A. H. Woods, the successful theatrical magnate, says: "Just saw 'The Cinderella Man' at your picture. There is no word in the English language powerful enough to describe this wonderful production."

## PRINCESS MONDAY.

Beautiful Pauline Frederick is to be seen in her latest Paramount photoplay, "Madame Jealousy" at the Princess Theatre on Monday. "Madame Jealousy" was written by George V. Hobart, author of "Experience," "Every Wife," and other allegorical plays, and was directed by Robert Vignola. In it Miss Frederick portrays brooding "Jealousy" and symbolically carries out her part in breaking up a love affair between two young people, Charm and Valor. Valor is played by handsome Thomas Meighan who has often appeared with Miss Frederick, notably in "Sapho," "The Love That Lives," and others as well known.

Practical Jeweler and Graduate Optometrist  
ESTABLISHED 1896

The INTELLIGENT, and WISE people always patronize the business houses of established reputation for honest and square dealing, and the reliable workmanship which is acquired only by long years of experience. Such is the house M. D. Kelly. Established in Hopkinsville in 1883.

A Watchmaker of Acknowledged Superiority.  
A DIAMOND EXPERT.

Do Your Best 'Bit' This Year By Determining Not To Leave a Bit of Cultivable Land Unplowed

There was never a time when the farmer, the farm and the farm products were more in the limelight and held greater attention, a time when more depended on the intelligent cultivation of the greatest acreage than right now.

The farmer's battle with his problems and the elements is every whit as important as the battles that will be fought in the trenches of Europe. It is generally conceded that FOOD WILL WIN THIS WAR—and the growing of food is the farmer's business.

For your necessary plowing we unqualifiedly recommend

Syracuse Slatted Mold Plows  
Made by John Deere.

In every way these plows are superior. They have no equal in scouring, are light draft, easy to handle, point and shin in one piece, give long service and are economical.
